

Type of Incident

*Arm Injury*

Summary:

An employee was carrying out inspection work of welds and he tripped over forklift extensions which were lying on the ground behind him.

No Pictures

Root Causes:

- Forklift extensions were not stored in a safe location
- Employee did not take care to be aware of his surroundings

Actions Taken Thus Far: Next Steps

- Identify suitable location to store forklift extensions
- Review risk assessment and amend as necessary
- Carry out awareness training for employees on housekeeping and safe storage of items
